

Rick Sasso, M. D. of Indiana Spine Group, named one of the top twenty-eight spine surgeons in America

On April 17, 2012, Orthopedics This Week, named Rick Sasso, M.D. one of the top twenty-eight spine surgeons in America. He was selected by leading spine surgeons picking the best of their peers. The spine surgeons who appeared multiple times at the top of the lists became the top in the profession.

Dr. Sasso was quoted as a phenomenal technical surgeon and minimally invasive world leader, by his fellow peers.

Indiana Spine Group, is a Center of Excellence for spine care. From the simple to the complex, Indiana Spine Group provides comprehensive spine care for all spinal disorders using the most advanced diagnostic and treatment tools. They provide a complete continuum of spine care, from diagnosis and a focused non-operative spine care program to complex spine surgery. The practice is a major referral and research center for comprehensive spine treatment. Their team approach means the most highly trained specialists work together and bring multiple perspectives to determine the best treatment options. All physicians are board certified and dedicated to spine care. The physician team includes minimally invasive spine specialists, orthopaedic and neurosurgical spine surgeons.

Locations of Indiana Spine Group include: Carmel, Indianapolis, Anderson, Danville and Kokomo. For more information please visit the website at www.indianaspinegroup.com.
